2021 Pay Award-Recalculations

If the pay award goes through in January 2022, SPF's preferred method of receiving data to process recalculations (for members who have left since 1st January 2021) is via our "post pay award revised figures" spreadsheet:

<https://www.spfo.org.uk/index.aspx?articleid=15845>

For active members on i-Connect, any arrears should just be part of the data for the period in which they are paid, submitted to SPF in the usual way.

Please do not submit data via i-connect for any members who have left since 1st January 2021 as this will result in new membership records being generated for these leavers.

If you want to discuss, please contact Robert Wright at robert.wright@glasgow.gov.uk
